

Forsberg Gallery Floor Plan

LCC's Art Gallery is housed in two levels. The mezzanine houses the Minthorn International Gallery with some of the college's permanently displayed collection. The Forsberg Gallery, on the main level, is an exhibition space.

Forsberg Gallery Features:

Approximately 100 feet of running wall space.

Walls are painted off white and constructed of drywall backed with plywood. Moveable temporary walls are available for more wall space and differing configurations.

38 and 24-foot walls have a ceiling height of 18 feet (not including the drop for the lighting system).

20-foot wall has a ceiling height of 16 feet (not including the drop for the lighting system).

22-foot wall is 8 feet tall with an overhang that includes directional lighting.

Grey Terrazzo Flooring throughout.

Lighting consists of flexible incandescent track lighting, with separately switched tracks.

Various pedestal sizes are available for displaying 3D work.
