“What I love the most about LCC is the staff. This my second year here and every professor I’ve had has been wonderful! They care about their students and their success throughout the quarter. I always feel welcomed in a classroom because the teacher ensures a safe space for everyone. I am thankful for all their hard work and kindness.”

Prepare for a career in healthcare: Medical Assisting

The healthcare industry is expected to generate more jobs than any other career field over the next decade. As a Medical Assistant, you will work with patients in a clinical setting doing things like taking vital signs and preparing and performing EKGs. Medical Assistants also perform administrative duties like scheduling appointments and managing medical records.
