Si tu lenguaje natal es el Español, es lógico pensar que es difícil entrar al colegio debido a la barrera de lenguaje. Pero te darás cuenta de que hay mucha ayuda. Si tienes es deseo dentro de ti, encontrarás la manera. Busca ayuda afuera, y la fuerza en ti mismo para seguir adelante.

If your native language is Spanish, it may seem like a long shot to go to college because of the language barrier. There is so much help out there. If you have the desire, you will find the path. Ask for help, and find the strength within yourself to keep going.

Prepare for a career in healthcare: Medical Assisting

The healthcare industry is expected to generate more jobs than any other career field over the next decade. As a Medical Assistant, you will work with patients in a clinical setting doing things like taking vital signs and preparing and performing EKGs. Medical Assistants also perform administrative duties like scheduling appointments and managing medical records.

LCC offers a one-year certificate and a two-year degree in Medical Assisting. Although you can start the program anytime by taking prerequisites and supportive classes, students apply for the clinical portion of the program in winter quarter (to start in the fall).
