# **Mission, Vision and Values**

**OUR MISSION:** The mission of Lower Columbia College is to ensure each learner's personal and professional success, and influence lives in ways that are local, global, traditional and innovative.

**OUR VISION:** Our vision is to be a powerful force for improving the quality of life in our community.

**OUR VALUES:** Our campus community expects an environment of integrity, respect, collaboration, cooperation, inclusion, and innovation that fosters personal growth, academic excellence, and accountability.

*Lower Columbia College is a comprehensive community college and a member of the Washington Community and Technical College system as created by the Community College Act of 1967, serving people of the Lower Columbia region. We are an AA/EEO employer.*

Adopted by the Board of Trustees: July 18, 2007 – updated July 19, 2023.

# **Mission Areas**

The following institutional effectiveness framework was approved by the LCC Board of Trustees on July 20, 2011. – Updated July 19, 2023

## **MISSION AREA ONE: Workforce and Economic Development**

Objective 1: Provide quality professional/technical education for employment, skills enhancement, and career development.

Objective 2: Partner with business, community groups, and other educational entities to provide workforce development and customized programs and services.

## **MISSION AREA TWO: Academic Transfer**

Objective 1: Offer courses and support for students to meet the requirements for transfer from Lower Columbia College.

Objective 2: Provide the support for transfer students to successfully transition to upper division college and university programs.

## **MISSION AREA THREE: Preparation for College Level Studies**

Objective 1: Ensure that students who are under-prepared for college level studies have access to developmental coursework and bridge opportunities to college level work.

## **MISSION AREA FOUR: Student Access, Support and Completion**

Objective 1: Offer a full array of educational programs and support services to meet the diverse needs of Cowlitz and Wahkiakum counties.

Objective 2: Provide students with the support needed to pursue and achieve their educational goals.

## **MISSION AREA FIVE: Institutional Excellence and Community Enrichment**

Objective 1: Demonstrate our commitment to institutional integrity by investing in our campus, students and employees.

Objective 2: Uphold our reputation for high quality and contribute to the value of the community by promoting excellence in our programs, services and activities.

# Brief History of LCC

LCC was established in 1934 as Lower Columbia Junior College. First time students registered for classes at Korten's Music Store in Longview, Dahlman Hardware in Castle Rock, and the Orr Furniture Store in Kelso. Accounts of the number of students who enrolled that first year vary from 42 to 55. Students managing the College's first student newspaper, *The Lower Columbian*, put out ten issues that year. The founding faculty held classes at R.A. Long High School. The first graduating class, including seven students, received their associate degrees in 1936.

The number of enrolled students doubled in the College's second year, climbing to 96. As the number of students increased, instruction expanded into the Myklebust building in downtown Longview, and the Moose Hall. The Moose Hall continued to house classes until 1949, when damage from an earthquake caused the building to be condemned. Classes were also held on the first floor of the Longview Public Library. Enrollment continued to increase, with 149 students in 1939, up to 200 in the early 1950s, and finally reached 300 students in 1954. The proportion of female students also increased during that time. In 1948, the College received its first accreditation from the Northwest Commission on Colleges and Universities.

During the 1930s and 1940s, the College struggled with financial problems, and began to look for its own campus. Twenty-six acres were purchased from the Longview Company in 1942, at a reported bargain price. In 1950, construction began on "Old Main," LCC's first permanent building. The original building was slated to have thirteen classrooms, and came with a price tag of a quarter of a million dollars. The Lower Columbia College League, an association of friends of the College, assisted with fundraising efforts to pay for the construction.

After the College had achieved financial stability, it became a part of the Longview School District. In 1961, the College was elevated from a "junior college" to a "community college." In 1967, LCC joined the state-supported community college system. Today, the College includes 26 buildings on 38.75 acres, and enrolls over 4,000 students each year.

# Definition of Terms

- **Accreditation:** is an external review process to ensure that the institution is adhering to quality standards for higher education. LCC is accredited by the Northwest Commission on Colleges and Universities, one of six institutional accrediting bodies recognized by the United States Department of Education.
- **Career Pathway:** Refers to a cluster of jobs that requires similar knowledge and skills. Lower Columbia College offers a wide variety of program options in eight career pathways.
- **Contract Funded:** Refers to a course that is externally funded, such as by a company that has requested specific training for their employees.
- **Credit Course:** A course that, if successfully completed, can be applied toward the number of credits required to achieve a degree, diploma, certificate, or other formal credential.
- **Credit Hour:** A unit of measure representing an hour (50 minutes) of instruction over an approximately 11-week period in a quarter. It can be applied toward the total number of hours needed for completing the requirements of a degree, diploma, certificate, or other formal credential from the college.
- **Degree Seeking Student:** Students enrolled in courses for credit that apply to a degree or other formal credential that is offered by the college. Students are also considered degree-seeking while working on pre-requisites to their degree or certificate program (including precollege courses).
- **Full-Time-Equivalent (FTE) Student:** is the equivalent of 15 credit hours per quarter, or 45 credit hours per academic year. The calculation is total credits earned/15 for quarterly FTE and total credits earned/45 for annual FTE.
- **Full-Time Student:** A student enrolled for 12 or more credits in a given quarter.
- **Guided Pathways:** a redesign of the college experience for students as we know it today, intended to help more people graduate. Some primary components include career pathways and degree maps; predictable schedules; integrated precollege instruction; progress tracking, support and feedback for all students; and bridges for college programs.
- **Major:** Although LCC technically does not have majors, the word is used to describe students who are recognized by the institution as being enrolled in a particular degree or certificate program.
- **Noncredit Course:** A course or activity having no credit applicable toward a degree, diploma, certificate, or other formal credential.
- **Part-Time Student:** A student enrolled for less than 12 credits in a given quarter.
- **State-Funded:** Refers to a course that is internally funded, with resources obtained through the state enrollment/appropriation model. Base funding is determined by the number of target FTE that have been assigned to the college by the state. Reimbursement rates vary between different categories of FTE.
- **Student-Funded:** Refers to a course for which a student would not be eligible to receive financial aid, such as community education courses.
- **Student Persistence:** Refers to students continuing at the college from term to term in credit bearing courses that lead to a credential or other educational goal.
- **Student Retention:** Refers to whether a student successfully completes the term for which they are enrolled (i.e., does not withdraw from all classes).
- **Unduplicated Headcount:** Headcount that counts each student only one time regardless of enrollment in multiple courses or programs.

# Student Home Location

The vast majority of LCC students are from the college's official service district, including Cowlitz and Wahkiakum Counties.

Although LCC serves many students in Oregon, Oregon is not part of the college's official service district. A small percentage comes from elsewhere in Washington State (including Clark Co.) and out of state locations.

# Preparation of Incoming Students

A significant amount of work has occurred over the past several years to help incoming students traverse math and English requirements more efficiently. These efforts include increasing the opportunities available for students to begin their studies at college level vs. having to complete pre-college coursework. The chart below illustrates the proportion of students who start in college level English and math studies (based on courses taken during the academic year in which they enter).

**New Summer/Fall Students Who Start in College Level English**

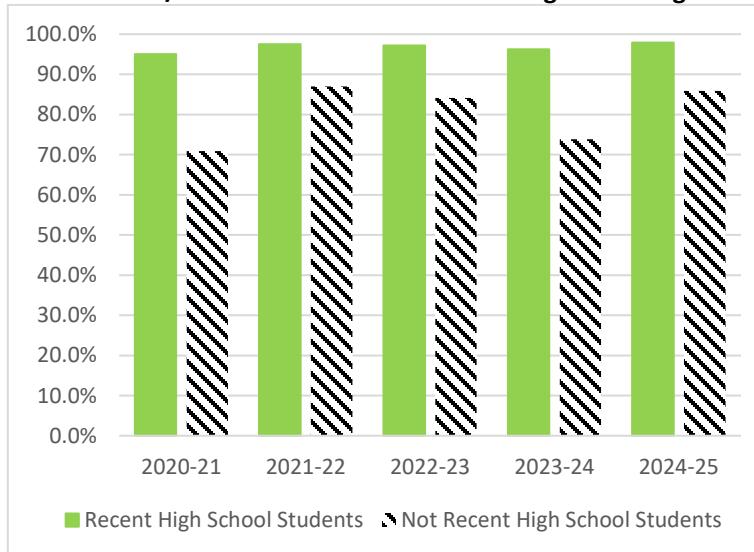

Year	Recent High School Students	Not Recent High School Students
2020-21	95.0%	70.9%

## College Navigator (US Dept. of Education)

### Graduation Rate

The United States Dept. of Education tracks graduation rates for college students by calculating how many new students entering in a given fall quarter graduate within specific amounts of time. Most commonly, Graduation Rates are reported at 150% of “normal” time, which is three years for community college students (since theoretically a full-time student could complete an associate degree in two years, 150% of that would be three years).

# Equity & Persistence

In 2019-20, the State Board for Community and Technical Colleges (SBCTC) consolidated student cohort tracking methodology to focus on First-Time Entering Students. These tables depict the proportion of new, degree-seeking Transfer and Workforce students with selected characteristics who are still enrolled in subsequent quarters after they first started college.

# Sustainability

Lower Columbia College supports and promotes environmentally responsible practices that protect the earth's natural resources. Our goal is to shift operational practices and academic programs to address concerns of the earth, the economy, and social equity. We will strive to maintain and develop the college in a responsible manner and to minimize the impact on the environment.
