**Monday,
November 30
2015**

**Free Writer's Workshop, 3:30-5 p.m.
Main Building, Room 145**

**Reading, 7-8 p.m.
Longview Public Library**

Dave Tucker lives in Bellingham, Washington. He has a Masters degree in geology and is a research associate in the geology department at Western Washington University. He leads public field trips and gives presentations about the geology of northwest Washington, and is author of a popular blog, Northwest Geology Field Trips: nwgeology.wordpress.com. *Geology Underfoot in Western Washington* is his first book.

Dave is a director of the Mount Baker Volcano Research Center, an all-volunteer nonprofit organization that raises funds to support research at the active volcano and educate the public about volcanic hazards of Mount Baker. Learn more about MBVRC at mbvrc.wordpress.com. Tucker has been mapping Mount Baker's geology since the mid-1990s, in particular the distribution of volcanic ash deposits. He has also done geologic studies throughout the Cascades, Alaska, and in Chile.

The public is invited to these free events.
