James R. Wells is the author of the science fiction novel *The Great Symmetry*, grand prize winner of the 2015 Cygnus Award for speculative fiction. The second installment in the series, named *The Eternal Moment*, will be published in 2017. His stories combine adventure with an exploration of themes around the freedom of ideas and information.

A life-long caver and outdoor explorer, he has mapped new passages in many of North America's great caves. When not writing or with family, James can be found in a cave, on a mountain, under the sea, or anywhere else outside.

James is the great-grandson of pioneering science fiction author H.G. Wells.
