

# HIGH SCHOOL TO LOWER COLUMBIA COLLEGE MATHEMATICS TRANSFER GRID KALAMA HIGH SCHOOL

The grid below establishes a **minimum placement level at Lower Columbia College (LCC)** for students from Kalama High School based on the grade earned in the most recent mathematics course completed at Kalama High School. Please note that students will still need to take the placement exam at LCC for data purposes and to determine if their current skills and knowledge warrant a higher level of placement than indicated by the transfer grid.

### NOTES:

- \* Students must register for a math course **within one academic year** of completing the qualifying high school math course.
- \* Students must provide an **official high school transcript**.
  - ✓ 1<sup>st</sup> semester grades may be used for provisional placement.
  - ✓ 2<sup>nd</sup> semester grades determine actual placement via the grid.
- \* Students may use either the **transfer agreement or placement test** results to determine their initial placement at LCC.

### non-STEM courses include:

- \* MATH& 107 – Math in Society
- \* MATH& 131 – Math for Elementary Teachers I
- \* MATH 210 – Elements of Statistics
- \* BUS 206 – Statistical Methods
- \* or MATH 98/99 to move to the STEM-track
  - ✓ STEM-track students are defined as those students whose major requires either Calculus (MATH 151) or Business Calculus (MATH 148)
