## Advising

New students are assigned a care team consisting of two team members, including a Career Pathways Advisor and a Faculty Advisor.

---

### Career Pathways Advisor

After completing their onboarding steps, new students meet with their Career Pathways Advisor to ask questions, discuss career aspirations, learn about ways to pay for college, develop the first draft of a three-quarter academic plan, and register for classes.

During students' time at LCC, they continue to work with their Career Pathways Advisor to build and adjust their academic plan, navigate the college, and get their quarterly advising holds released.

### Faculty Advisor

Once a student has met with their Career Pathways Advisor and registered for classes, they are also assigned a faculty advisor. During their first quarter, students should meet with their faculty advisor to discuss their career pathway and transfer plans. Following their first quarter, they should continue working with their faculty advisor as they further plan for their time beyond LCC.
