Willow Grove Gardens

Here at Willow Grove Gardens, we have been adding to the health of our soils continually. We don't use chemicals or herbicides. We do use natural fertilizers and minerals to ensure the crops that we grow have proper nutrients and they are full of vitamins and nutrients. We grow many different crops, most with multiple varieties. Our specialties are tomatoes, peppers, strawberries, beans, broccoli, cauliflower, garlic and lettuce. Many crops are available before the first of June.
