

# Return to Campus Guide for Childcare

* CLI Symptoms	Close Contact w/ Person Being Tested	Close Contact w/ A Confirmed Case	Diagnosed w/ COVID-19
<ul style="list-style-type: none"> <li>Stay home</li> <li>See your healthcare provider</li> <li>Telework if possible</li> </ul>	<ul style="list-style-type: none"> <li>Stay home</li> <li>See your healthcare provider</li> <li>Telework if possible</li> </ul>	<ul style="list-style-type: none"> <li>Stay home</li> <li>See your healthcare provider</li> <li>Telework if possible</li> </ul>	<ul style="list-style-type: none"> <li>Stay Home</li> <li>Telework if possible</li> </ul>
<ol style="list-style-type: none"> <li>Return to work w/ doctor's note, OR</li> <li>After 24 hours symptom-free.</li> </ol>	<ul style="list-style-type: none"> <li>Quarantine** until the Close Contact receives test results</li> </ul>	<ul style="list-style-type: none"> <li>Quarantine** for 14 days after exposure</li> </ul>	<ul style="list-style-type: none"> <li>Isolate according to Dept. of Health (minimum 10 days)</li> </ul>
	Does not apply to contact with workers who are randomly tested		

Class A Symptoms	Class B Symptoms
<ul style="list-style-type: none"> <li>Fever (subjective or greater than or equal to 100.4)</li> <li>Chills</li> <li>Cough</li> <li>Loss of sense of taste and/or smell</li> <li>Shortness of breath</li> </ul>	<ul style="list-style-type: none"> <li>Fatigue</li> <li>Headache</li> <li>Muscle or body aches</li> <li>Sore throat</li> <li>Congestion or runny nose</li> <li>Nausea or vomiting</li> <li>Diarrhea (at least 2 loose stools in 24 hours)</li> </ul>

**Close Contact:**  
 Coming within 6 feet of an infected person for at least 15 minutes, starting from 2 days before illness onset or positive test results (for asymptomatic patients) until patient is isolated.  
 Does not apply to healthcare workers caring for patients known to have COVID-19.

**\*\*Do Not Quarantine If (all 3 must be true):**

- It has been 2+ weeks since you completed a vaccine series
- It has been less than 3 months since you completed a vaccine series
- You do not have any CLI symptoms

**Does a health care provider make a non-COVID alternative diagnosis that explains all symptoms?**

**Yes**

**Isolate until at least:**

- 24 hours after fever resolves without use of fever reducing medication

AND

- You no longer have symptoms

OR

- Per condition diagnosed by Health Care Provider Whichever is Longer

**No**

Person has:

- Any class A symptom of any duration, OR
- 2 or more class B symptoms of any duration, OR
- 1 or more class B symptom lasting more than 24 hours

Person has:  
1 class B symptom lasting less than 24 hours

**COVID-19 test is...**

**Negative**

**Positive or not done**

**COVID-19 test is...**

**Positive**

**Negative or not done**

**Isolate until at least:**

- 10 days since symptom onset AND
- 24 hours after fever resolves without use of fever-reducing medication AND
- You no longer have symptoms

**Isolate until at least:**

- 24 hours after fever resolves without use of fever-reducing medication AND
- You no longer have symptoms
